T-Rex™

T-Rex™ is intended for removal of coatings, not for conventional grinding! The tools have an extremely high removal capacity and can remove even the thickest coatings such as paint, lacquer, epoxy, acrylic, and residues of adhesive and screed.

T-Rex™ Gold, 160 mm
(Item Number: 210767)

This model does not allow you to adjust the grinding pressure, but you get more uniform removal if the surface is very uneven.

Also available:

220 mm A (210868), B (211293)

270 mm A (210869), B (210870)

T-Rex™ EZchange™ Gold
(Item Number: 210908)

The EZchange™ variant of T-Rex™ gives greater freedom of choice when choosing the required removal rate and grinding pressure with either the full set or half set fitted.
