Fenix II

The Fenix II series is updated with a new formula and design giving the tools an increased performance.

Applications where Fenix II is suitable are grinding of screed products, concrete, natural stone and it can also be used in the HTC Superfloor™ process. The pads are easy to attach on Velcro holders under the HTC's machines. The tool series is available in sizes 5", 7", 9" and 11" and use a clear color coding which simplifies the grinding process.

Fenix 3 Gray

The tool is suitable for coarse grinding and is a very efficient first step with a high capacity.

Creates a coarse surface.

Fenix 4 Brown

The tool is suitable for grinding and is a very efficient first step with a high capacity or a second step after Fenix 3 Gray.

Creates a coarse surface.

Fenix 5 Black

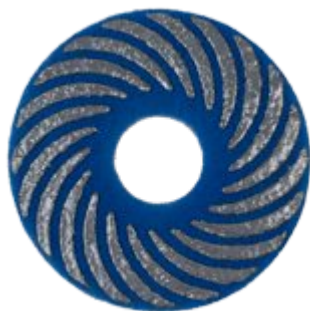

The tool is suitable for grinding and is a very efficient first step with a high capacity or a second step after Fenix 3 Gray or 4 Brown.

Creates a fine surface.
